ASR AFRICA

INFORMATION PACK

Abdul Samad Rabi Initiative

The ASR Africa Initiative which is the brainchild of industrialist and Philanthropist, Abdul Samad Rabi was recently set up with an annual pledge of 100 million dollars dedicated to Health, Education and Social Development issues within the African continent with Nigeria to benefit 50 million yearly and the rest of Africa, 50 million dollars in what is the largest private philanthropic giving of its kind by an individual in Africa

ASR Africa Initiative for Education, Health and Social Development in Africa focuses mainly on equipping facilities, researchers, healthcare practitioners and community level service providers and also supporting the efforts of various Governments in Nigeria and Sub-Saharan Africa in Education, Healthcare and Social Development

AFRICA FUND FOR SOCIAL DEVELOPMENT & RENEWAL

Over the years as a corporate, and through the BUA Foundation, we have been actively involved in corporate philanthropy in various sectors from health, education, community development, water sanitation, sports, and even more recently, our work on COVID-19.

However, with the Abdul Samad Rabiou Initiative and its annual USD 100 million Africa Fund for Social Development, we are specifically extending this work to the Education, Health and Social Development sectors, starting with infrastructure and capacity development in these areas and supporting the efforts of various governments in Nigeria and Sub Saharan Africa

Our broad focus is equipping facilities, our researchers, healthcare practitioners and community level service providers, with the aim of providing sustainable solutions for generations to come.

Abdul Samad Rabiou CON
Chairman, ASR Africa

ASR Africa Transformation Areas
